

Android Mobile Software Engineer

About Qnective

This is your opportunity to join one of the international leading providers of secure communication platforms and solutions for the next generation of mobile communication. Qnective offers secure communication services for governments, public safety organizations and large-scale enterprises. The company develops and maintains a Swiss made, unique proprietary encrypted platform for telephony and communication services with mobile devices.

About the role

We are looking for an **Android Mobile Software Engineer** to complete a team of highly qualified professionals devoted to the design and the development of innovative secure mobile communication solutions. For this international and dynamic environment, we are looking for a strong and organized personality able to deal between various responsibilities, showing initiative, independence and high professionalism.

Responsibilities

- Participation in the whole life cycle development of Qnective's solutions
- Android development:
 - Bringing expertise in mobile application design and development
 - Monitoring and assisting other developers with coding issues and quality assurance
 - Remaining up to date with latest Android technologies
- Analyzing, designing and implementing new functionalities for client-side mobile applications on Android
- Identifying issues, improving and troubleshooting of existing codes
- Implementation of automated tests

Your profile

- University degree in computer science or equivalent
- Professional experience of minimum 3 years on Android
- Excellent object-oriented programming skills in Java; C/C++ is a strong plus
- Strong knowledge in native Android software development
 - Designing patterns, multi-threading, networking, UI
 - Android SDK, JNI
 - Expertise in troubleshooting and debugging codes
- Ability to propose solutions and strategies for improving software structure
- Experience in VoIP and mobile security is a plus
- Ability to deliver high-quality production code and to meet deadlines
- Structured and autonomous approach to work
- Fluent in English; any other language is a plus

What we offer

This is your chance to join a highly innovative team with experienced professionals. You will encounter a friendly atmosphere with a start-up and entrepreneur mentality. Furthermore, we offer you a permanent employment with a competitive package and the possibility to live in one of the most beautiful areas of the world. In addition, we also offer you broad possibilities to evolve in your career.

Interested? Send your application (CV, motivational letter, diplomas) to Ms. Vivienne Daescher at jobs@qnective.com with the subject line “**Android Mobile Software Engineer**”.

For this role we only consider direct applications from candidates.
