

## System Engineer

### About Qnective

This is your opportunity to join one of the international leading providers of secure communication platforms and solutions for the next generation of mobile communication. Qnective offers secure communication services for governments, public safety organizations and large-scale enterprises. The company develops and maintains a Swiss made, unique proprietary encrypted platform for telephony and communication services with mobile devices.

### About the role

We are looking for a **System Engineer** to complete a team of highly qualified professionals devoted to the design and the development of innovative secure mobile communication solutions. For this international and dynamic environment, we are looking for a strong and organized personality able to deal between various responsibilities, showing initiative, independence and high professionalism.

### Responsibilities

- Properly assess availability and system sizing requirements
- Documentation, tuning and support of related environments
- Consultant services for project managers on technical matters
- Improve procedures and internal standards for server installation, Monitoring, Hardening, Backup, High Availability and Disaster Recovery
- Develop, maintain and documentation of Scripts
- On Call and planned work during off-hours
- Responsibility for Implementation, Transition and Operation of Services
- Responsibility for various practices such as configuration management, problem management, change & release management, system and data recovery according RACI Matrix IT
- Responsible for B2B Support Services

### Your profile

- High School Graduation
- 5+ year experience in Linux administration (Enterprise Linux preferred)
- Familiar with DNS, IPv4, NFS
- Experience in scripting
- Methodical / system oriented approach
- Understanding of PKI
- Fluent in English

### What we offer

This is your chance to join a highly innovative team with experienced professionals. You will encounter a friendly atmosphere with a start-up and entrepreneur mentality. Furthermore, we offer you a permanent employment with a competitive package and the possibility to live in one of the most beautiful areas of the world. In addition, we also offer you broad possibilities to evolve in your career.

Interested? Send your application (CV, motivational letter, diplomas) to Mrs. Vivienne Daescher at [jobs@qnective.com](mailto:jobs@qnective.com) with the subject line "**System Engineer**".

**For this role we only consider direct applications from candidates.**
