

Lead Software Engineer – iOS Mobile Development

About Qnective

This is your opportunity to join one of the international leading providers of secure communication platforms and solutions for the next generation of mobile communication. Qnective offers secure communication services for governments, public safety organizations and large-scale enterprises.

The company maintains a Swiss made, unique proprietary encrypted platform for telephony and communication services with mobile devices. Qnective's infrastructure department delivers tailor-made solutions covering the design, development and deployment of maritime and terrestrial security and surveillance networks.

About the role

We are looking for a **Lead Software Engineer for iOS Mobile Development** to complete a team of highly qualified professionals devoted to the design and the development of innovative secure mobile communication solutions. For this international and dynamic environment, we are looking for a strong and organized personality able to deal between various responsibilities, showing initiative, independence and high professionalism.

Responsibilities

- Participating in the whole life cycle development of Qnective's solutions
- Analyzing, designing and implementing new functionalities for client-side applications
 - Bringing expertise in mobile application design and development
 - Drive, monitor and assist other developers along the product lifecycle
 - Remain up-to-date with latest iOS trends and technologies
- Analyze, design and implement new client-side functionalities
- Identify issues, improve, and troubleshoot existing code
- Coordinate and implement automated tests

Your profile

- Professional experience of minimum 5 years developing iOS applications
- Strong knowledge in native iOS mobile software development
 - iOS core languages and APIs (Objective-C++, Swift, Foundation, CocoaPods, UIKit, ...)
 - Mobile app-oriented design patterns, multi-threading, networking, UI
 - Experience with continuous integration techniques and tools
 - Expertise in troubleshooting, debugging code
- Proven track record of leadership skills, managing a small team of developers
 - Ability to deliver high-quality production code, plan and meet deadlines
 - Structured and autonomous approach to work
 - Ability to propose solutions and strategies for improving software structure
- Experience in one or more of the following items is considered a plus
 - Qt/C++ development
 - Scripting using Bash and/or Ruby
 - Mobile security
 - LLVM internals
 - VoIP
- Open-minded and fluent in English with strong communication skills
- Eligible to work in Switzerland (Swiss/EU citizens, or holder of a valid Swiss work permit)

What we offer

This is your chance to join a highly innovative team with experienced professionals. You will encounter a friendly atmosphere with a start-up and entrepreneur mentality. Furthermore, we offer you a permanent employment with a competitive package and the possibility to live in one of the most beautiful areas of the world. In addition, we also offer you broad possibilities to evolve in your career.

Interested? Send your application (CV, motivational letter, diplomas) to Mr. Erduan Mellova at jobs@qnective.com with the subject line **"Lead Software Engineer iOS Mobile"**.

We consider only direct applications.
