Swiss company provides Malaysian government with secure communication system **Qnective: Partnership with Malaysian government**

Zurich, 24 March 2016 – on Monday, 14 March, Swiss company Qnective received high-level Malaysian delegation at its head quarter in Zurich to initiate partnership for secure communication services especially for mobile phone users. Qnective has invented a sophisticated technology in the field of communication for military grade security systems, specifically for mobile communications. Malaysia is one of the ICT leading nation in Asia and committed to cybersecurity. The partnership with Qnective is targeted to provide no less than three million security licenses for mobile phone users in Malaysia by 2018.

The Malaysian delegation led by Honorable Dato Madius Tangau, Minister of Science, Technology and Innovation (MOSTI) and its members Mr. Ng Kang Siong, Executive Director of MIMOS (Malaysia's national R&D centre in ICT), Mr. Amirudin Wahab, CEO of CyberSecurity, and Mr. Suhaimi Hamzah, Under Secretary of MOSTI, have agreed with Qnective to further advance the secure communication partnership by co-development of special version of of secure software meeting the Malaysian regulations and patented by Cybersecurity Malaysia.

The software will be deployed to all members of the government, parliament, institutions, banks and private companies that are critical to the country's success.
